

Quintana Roo Ayiti P'awob

The feeling that I want to transmit is "guilt" for the people who go to the "trajinero" in Xochimilco lake because this is the most important cause of the extinction for one of my favorites animals, the "ayotl". This is a prehispanic animal who have awesome characteristics and I like the form of this animals, but actually they are in danger of extinctions and I want to raise awareness to people of my age to don't think and do parties in this lake.
